

LITAPOWER

Shared Power Bank

Global Full-Chain Solution Provider

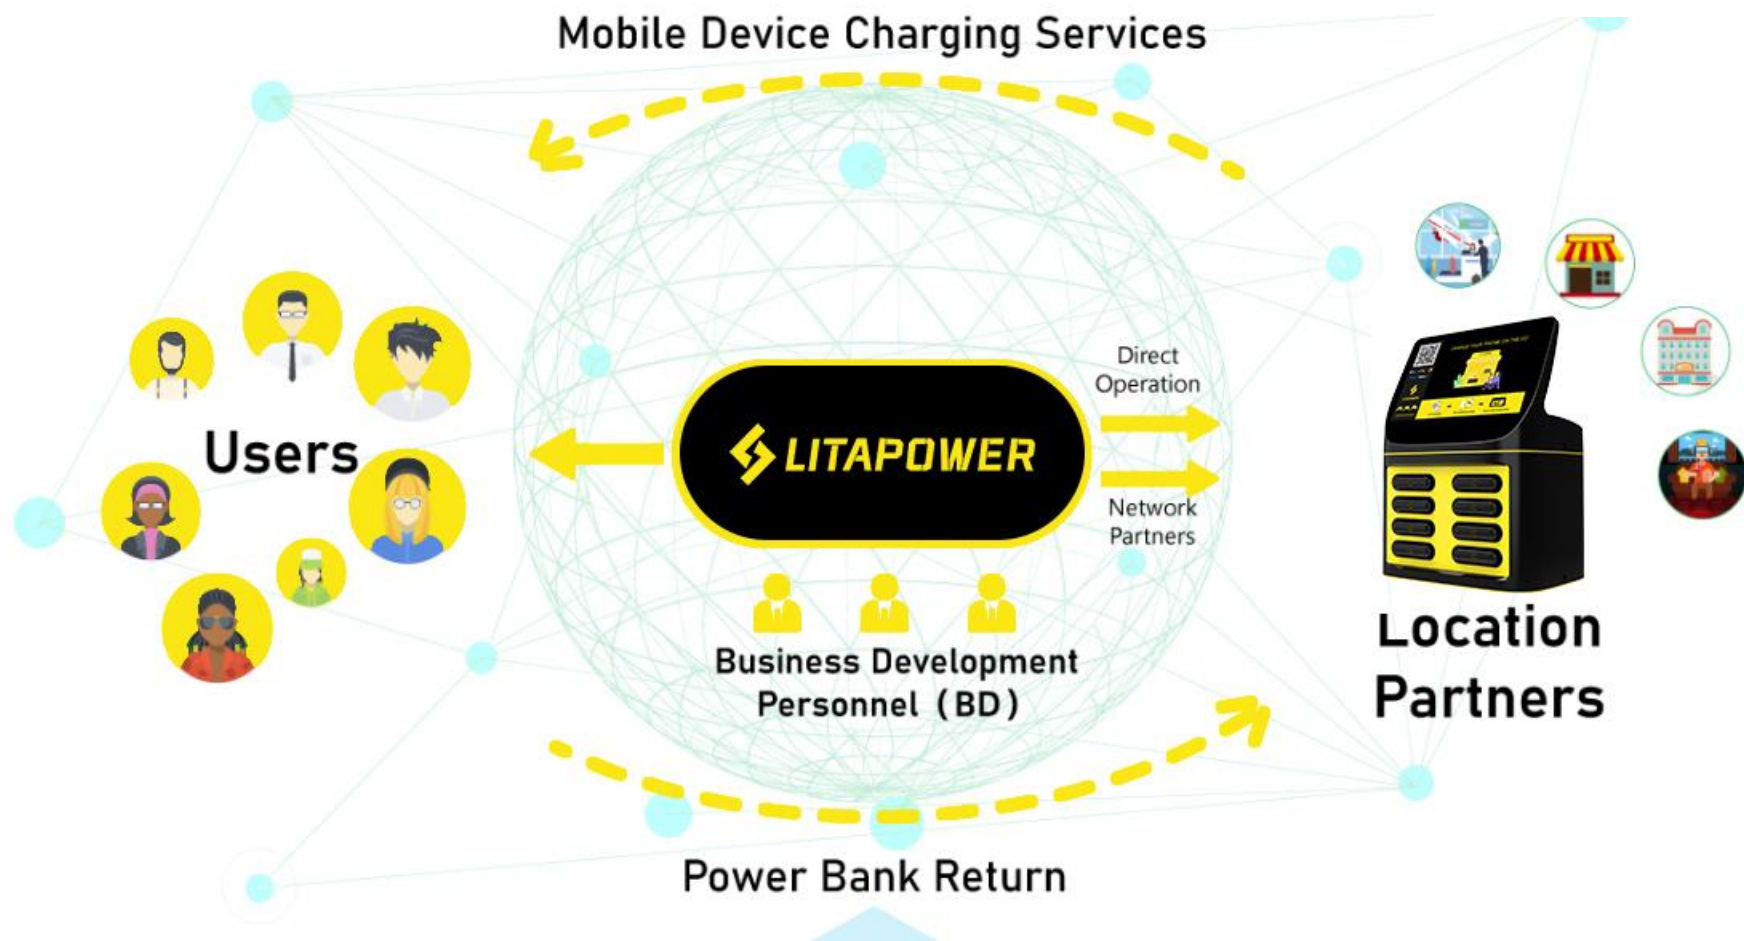

<https://www.lita-power.com>

What is power bank sharing business?

- Power bank sharing rental is a new concept in charging your mobile phone on the go. Various cafes, restaurants and other businesses struggle to offer mobile phone charging facilities to their customers.
- Power bank sharing rental systems offer a phone charging station in complete with a sophisticated rental app that allows user to locate and rent a power bank and keep it for as long as they like without being attached to a wall socket.
- It is simple and easy to use and benefits to both owner and end user.

Company Profile

About Us

Founded on August 25, 2014, Zhongdianhexin is a global integrated service provider of shared power bank based on Internet and IoT technology, industrial characteristics and ecological environment integrating R&D, production, operation and service.

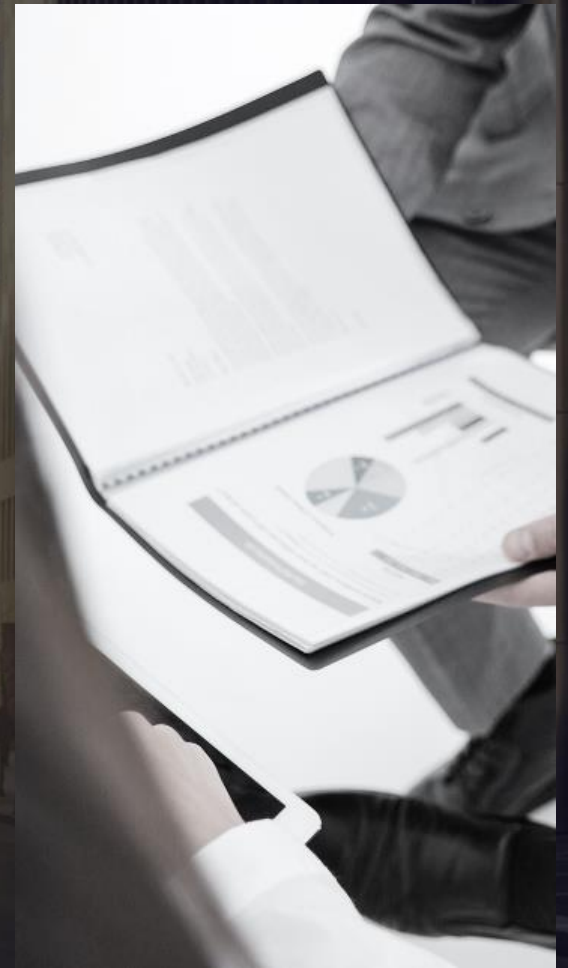

Corporate Culture

Mission: To empower partners with a shared business venture they can take pride in

Core Values: Ambition, Punctuality, Precision, Accountability

Product Philosophy: Quality products stem from quality people

Development Milestones

2014

2014年

Company
Founding & IoT
Industry Entry

2016

domestic

2016年

The first shared
power bank
product was
successfully
launched and
received high
praise from the
market.

2018

2018年

Completed the
first overseas
shared power
bank project and
began to enter
the overseas
market

2021

2021年

Completed
overseas
diversified layout
and established
many overseas
branches.

2025

2025年

The market share
of shared power
banks has been
rising steadily,
ranking first in the
industry both at
domestic and
abroad

Super Factory**

6 Reasons to Choose Us

In-House Manufacturing: As the source factory, we operate a large-scale automated production facility with complete process control, guaranteeing both delivery timelines and production capacity.

Patented Solutions: Our company holds multiple patents including software copyrights, invention patents, and design patents, ensuring fully protected solutions for our clients.

Global Expertise: Our solutions serve clients worldwide, backed by extensive international product experience and proven market operations capabilities.

R&D Capabilities: We provide end-to-end solutions for shared power banks, with in-house R&D driving continuous innovation in both hardware and software systems.

Global Insurance: We provide worldwide insurance services for our products, making us one of the few companies in the industry to offer such protection—ensuring peace of mind for our clients.

Expert Team: Our company boasts a professional R&D team specializing in IoT hardware and software, with proven experience serving industry leaders like Alibaba and Meituan.

ISO 9001 Quality Management System Certified

Over 3000m² of gigafactory

Over 2000 units/day

NBC TV Interview

LITAPOWER shared power bank is the official brand of the Global Diplomat Organization. With more than 10 years of cooperation, it has won praise from many diplomats.

A black and white photograph of three young women laughing joyfully together outdoors. The woman on the left is wearing a dark top, the woman in the middle is wearing a dark top, and the woman on the right is wearing a light-colored tank top and a straw hat. They are all smiling broadly, showing their teeth. The background is slightly blurred, showing a building with arches and a paved area.

Products Introduction

<http://www.lita-power.com>

► Product History

2016~2017

Desktop 4/6 slots devices,
small in size, lightweight
and portable.

2018~2019

8-port with screen or
lightbox, add advertising
area, lighting up the screen.

2021~2022

The 8-port stackable machine has
become the mainstream in the market,
the cost-effectiveness option. It can
meet the needs of medium and large
traffic flows. It can be adjusted flexibly.
The first choice of our clients..

2023~ Now

An upgraded style with 8-port stacking,
multiple new light strips, modular design,
more flexible stacking arrangements, and
an L shape screen that is convenient for
users to watch. It became a hit once it was
launched!

► Products Highlights

Key Technology 1

Our own technical team and R&D team, with completely independent intellectual property rights. The equipment structure, battery structure, and slot design have all applied for patents.

Key Technology 3

The intelligent timing and billing system provides a clear comparative display of all data such as venue revenue ratio, profit ratio, and profit-sharing ratio.

Key Technology 2

Professional control, quality testing, the battery is safe and reliable, and only using flame retardant materials is safer.

Key Technology 4

The modular design of the cabinet saves time and effort in after-sales maintenance. To return the power bank, you only need to insert the power bank into the card slot and complete the return action in one second.

Standard & Light Box & Screen & POS Optional

Pocket Series

6-Slot Charging Station

| | |
|--------------------------|---|
| Model | ZD-X6 |
| Station Size | L265mm*W240mm*H200mm |
| Weight | 1.95KG |
| Color | Customized |
| Input | 12V2A |
| Output | 5V2A |
| Maximum output power | 28W |
| Communication Method | Built-in GPRS industrial grade module, 4G communication module |
| Operator Network | Built-in APN parameters of mainstream operators, supporting global operation networks |
| Environment requirements | Working Temperature: 0°C-+45°C, Humidity 10% - 85% Storage Temperature: -25°C-+55°C, Humidity 5% - 93% |
| Remote Upgrade | Support remote OTA upgrade |
| Communication Protocol | Customized serial protocols. Server communication protocol interface available |

8-Slot Charging Station

| | |
|--------------------------|--|
| Model | ZD-S8 |
| Station Size | L290mm*W240mm*H180mm |
| Weight | 2.4KG |
| Color | Customized |
| Input | 12V2A |
| Output | 5V2A |
| Maximum output power | 28W |
| Communication Method | Built-in GPRS industrial grade module, 4G communication module |
| Operator Network | Built-in APN parameters of mainstream operators, supporting global operation networks |
| Environment requirements | Working Temperature:: 0°C-+45°C, Humidity 10% - 85% Storage Temperature: -25°C-+55°C, Humidity 5% - 93% |
| Remote Upgrade | Support remote OTA upgrade |
| Communication Protocol | Customized serial protocols. Server communication protocol interface available |

Pro Series

8-Slot Stackable Charging Station (4x2)

| | |
|------------------------|---|
| Model | ZD-DG08 |
| Station Size | 178mm(L)*260mm(W)*240mm(H) |
| Color | White/ Black /Customized |
| Input | DC 12V 5A |
| Output | 5V 2A |
| Rated Power | 60 W |
| Security Protection | V0 level flame retardant ABS+PC material |
| Communication Method | Built-in GPRS industrial grade module, 4G communication module |
| Operator Network | Built-in APN parameters of mainstream operators, supporting global operation networks |
| Weight | 2.42 KG |
| Remote Upgrade | Support remote OTA upgrade |
| Communication Protocol | Customized serial protocols. Server communication protocol interface available |

| | |
|------------------------|---|
| Model | ZD-DG08D |
| Station Size | 178mm(L)*260mm(W)*340mm(H) |
| Color | White/ Black /Customized |
| Input | DC 12V 5A |
| Output | 5V 2A |
| Rated Power | 60 W |
| Security Protection | V0 level flame retardant ABS+PC material |
| Communication Method | Built-in GPRS industrial grade module, 4G communication module |
| Operator Network | Built-in APN parameters of mainstream operators, supporting global operation networks |
| Weight | 2.81 KG |
| Remote Upgrade | Support remote OTA upgrade |
| Communication Protocol | Customized serial protocols. Server communication protocol interface available |

8-Slot Stackable Charging Station

| | |
|------------------------|---|
| Model | ZD-D08 |
| Station Size | 260mm(L)*180mm(W)*252mm(H) |
| Color | White/ Black /Customized |
| Input | DC 12V 5A |
| Rated Power | 60 W |
| Security Protection | Made of high temperature resistant, fireproof, drop-proof, V0 level flame retardant ABS+PC material |
| Communication Method | Built-in GPRS industrial grade module, 4G communication module |
| Operator Network | Built-in APN parameters of mainstream operators, supporting global operation networks |
| Weight | 2.4 KG |
| Voice | Support TTS voice broadcast (optional) |
| Remote Upgrade | Support remote OTA upgrade |
| Communication Protocol | Customized serial protocols. Server communication protocol interface available |
| Working Environment | Temperature: -25°C -55°C; Humidity: 25%RH-75%RH |
